What is a Data Pamphlet?

Data Pamphlets

are detailed economic and demographic data files for a specific geographic area, such as Wayne County, Michigan. Each *Data Pamphlet* costs \$245 and includes:

Economic and Demographic Data Files

for an individual county, state or Core Based Statistical Area (CBSA) – more than 85,000 statistics. Data and projections 1970 to 2060 or 1990 to 2060. Also included with each *Data Pamphlet* is selected comparative data for the U.S. and all Census Regions as well as rankings of the *Data Pamphlet* geographic area among similar areas for population, employment and income growth.

Technical Description of the projection methods, data sources, and data definitions.

Analysis of the Regional Projections highlighting emerging trends and presenting an outlook for regional economies. This chapter also discusses the outlook for the U.S. economy as a whole.

Includes Total Population Data from the 2020 Census

Data Pamphlets

A Valuable Resource for Market Analysts, Researchers, and Planners

Regional Market Analysis – economic and demographic data help marketing professionals and market researchers analyze the makeup of the economy, including income and employment growth, population changes, households, and retail sales potential.

Research and Reference – historical and projected data in one printed volume enable researchers to assess economic and demographic trends quickly; many different data sets in one source make it a valuable reference tool for libraries.

Long Range Planning – annual projections to 2060 aid planners in performing studies and preparing analyses.

Customized Presentation of Data – with the spreadsheet data tables by download, and using your own software, you can tabulate data and graph trends.

County Projections to 2060

Woods & Poole county projections are updated annually and take into account specific local conditions based on historical data from 1969 to 2022; all data from 2023 to 2060 are projected. Although not an indicator of future accuracy, the average absolute percent error for Woods & Poole's 10-year total population projections has been $\pm 8.1\%$ for counties and $\pm 3.9\%$ for states.

Available by Download

Data Pamphlets are available by download in spreadsheet files for use in almost any spreadsheet software. These computer readable files make it easier for the user to analyze the data, prepare special tables, and create graphs and charts. The data files by download have **annual data** through 2060.

Woods & Poole Economics, Inc. is a small, independent, firm that specializes in long-term county economic and demographic projections. Woods & Poole's database for every county in the U.S. contains projections through 2060 for more than 900 variables. Woods & Poole has been making county projections since 1983.
